DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-19 and 29, drawn to transgenic plants, genetically modified plant cells and harvestable parts from said transgenic plants and methods for producing transgenic plants all comprising a foreign nucleic acid molecule that reduces the activity of at least one OK1 protein.

Group II, claim(s) 20-23 and 25-27, drawn to modified starches, derived starches and methods for manufacturing said starches.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The technical feature linking the groups is modified starch from transgenic plants, however, this feature is not special because it does not constitute an advancement over the prior art. Frohberg (US Patent 6521816) teaches a modified starch from transgenic plants with altered activities of a phosphoglucan gene (see claims, for example). Furthermore, the inventions are independent and distinct from one another because the starch and starch extraction methods and materials of Group II are not required by Group I and the starch of Group II may be produced by chemical means or with unrelated transgenic plants.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
